YOUR PATHWAY TO GENERATIVE AI MASTERY

1

Phase 1: Discovery & Strategy Formation

Duration: 1 week

Goals: Align GenAI with business objectives.

Activities: Collaborative opportunity mapping, systems analysis, KPI definition, and use case selection.

2

Phase 2: GenAI Architectural Design

Duration: 2 weeks

Goals: Design a custom GenAI architecture.

Activities: Data preparation, GenAI design using Azure OpenAI, infrastructure development, and service initiation.

3

Phase 3: POC Development & Execution

Duration: 1 week

Goals: Integrate and test GenAI

Activities: Finalize GenAI development, optimize performance, validate KPIs, and incorporate feedback.

4

Phase 4: Performance Review & Scaling Strategy

Duration: Final days

Goals: Review POC and plan to scale AI in the org.

Activities: POC presentation, ROI analysis, knowledge transfer, and planning for future development.
